

Editorial

Chief Editor's note on behalf of the Editorial Board

I am glad to present to you volume 2(1) of this journal, which is open access but with no article publication charges (APC). The present issue of the bi-annual journal carries research articles on non-linear fluid mechanics authored by researchers from within the country and abroad. The peer-reviewed, well-formatted and plagiarism-checked articles symbolize the standard of the journal and meant to let researchers, especially youngsters, know what we expect in the papers that they shall submit online to subsequent issues of this journal. The focus of this dedicated, first-of-its-kind journal is entirely on nonlinear fluid mechanics. With the aim of getting the journal indexed in the shortest possible time, all standard editorial support is provided and good practices have been followed to give the authors and the readers the experience that top-notch journals provide.

I solicit your cooperation and support in making this journal a foremost one in the field by promoting it to budding and top-class researchers worldwide. Your feedback on improving the editorial experience with this journal is most welcome. Original research articles and review articles in the area of nonlinear fluid mechanics covering experimental, theoretical, computational and simulation aspects shall be considered for publication. Thank you in anticipation of getting on board!

Dr P G Siddheshwar,

FIMA(U.K.), FNASc (India)

Sr Prof. of Mathematics

Chief Editor, CU Journal of Non-Linear Fluid Mechanics

CHRIST (Deemed to be University)

Hosur Road, Bengaluru 560029, India
