Research Articles

Applications of the Volume Averaging Theory to Momentum and Heat Transfer within Complex Flow Systems
Akira Nakayama 1

On the Nonlinear Stability of Inviscid Homogeneous Shear Flows in Sea Straits of Arbitrary Cross Sections
V Ramakrishnareddy and M Subbiah 31

MHD Mixed Convection Flow over a Permeable Vertical Plate with Buoyancy and Soret Effects
J Prakash , B Rushi Kumar and R Sivaraj 51

Nanofluid Flow over a Rotating Disk with Prescribed Heat Flux
Julie Andrews and S P Anjali Devi 77

Effect of Boussinesq-Stokes Suspension over an Exponentially Stretching Sheet in a Hydromagnetic Flow
S Manjunath and L Venkata Reddy 93

Mixed Convection Flow over a Vertical Cone with an Applied Magnetic Field
K R Jayakumar, A H Srinivasa and A T Eswara 105

Dispersion in a Non-Linear Non-Darcy Flow of a Variable Viscosity Liquid
M S Jagadeesh Kumar, P G Siddheshwar and G Suresh Singh 113

Study of Thermal Convection in Micropolar Fluids Occupying a Rectangular Box
S Manjunath and N P Chandrashekara 129

Diffusive Mass Transfer in an Eccentric Annular Flow
B Umadevi , Dinesh P A, Indira R Rao and C V Vinay 143

Influence of Relative Length of Baffles on the Flow Field in a Rectangular Enclosure: A Computational Study
B H Lakshmana Gowda and N Gopi 157

A Numerical Simulation of Turbulent Flow through a Curved Duct
A K Biswas , Ashoke K Raman and A N Mullick 169

Heat Transfer in MHD Micropolar Fluid Flow Past a Vertical Plate in Slip-Flow Regime
Ramprakash Sharma and Abhay Kumar Jha 179

Effect of Non-Uniform Temperature Gradient on the Onset of Rayleigh–Bénard–Magnetoconvection in Micropolar Fluid with Maxwell–Cattaneo Law
S Pranesh and R V Kiran 193

MHD and Thermal Dispersion-Radiation Effects on Non-Newtonian Fluid Saturated Non-Darcy Mixed Convective Flow with Melting Effect
B D C N Prasad, K Hemalatha, and J Siva Ram Prasad 215
