Editorial	v
Research Articles	
Applications of the Volume Averaging Theory to Momentum and Heat Transfer within Complex Flow Systems <i>Akira Nakayama</i>	1
On the Nonlinear Stability of Inviscid Homogeneous Shear Flows in Sea Straits of Arbitrary Cross Sections <i>V Ramakrishnareddy and M Subbiah</i>	31
MHD Mixed Convection Flow over a Permeable Vertical Plate with Buoyancy and Soret Effects <i>J Prakash , B Rushi Kumar and R Sivaraj</i>	51
Nanofluid Flow over a Rotating Disk with Prescribed Heat Flux <i>Julie Andrews and S P Anjali Devi</i>	77
Effect of Boussinesq-Stokes Suspension over an Exponentially Stretching Sheet in a Hydromagnetic Flow <i>S Manjunath and L Venkata Reddy</i>	93
Mixed Convection Flow over a Vertical Cone with an Applied Magnetic Field <i>K R Jayakumar, A H Srinivasa and A T Eswara</i>	105
Dispersion in a Non-Linear Non-Darcy Flow of a Variable Viscosity Liquid <i>M S Jagadeesh Kumar, P G Siddheshwar and G Suresh Singh</i>	113
Study of Thermal Convection in Micropolar Fluids Occupying a Rectangular Box <i>S Manjunath and N P Chandrashekara</i>	129
Diffusive Mass Transfer in an Eccentric Annular Flow <i>B Umadevi , Dinesh P A, Indira R Rao and C V Vinay</i>	143

Influence of Relative Length of Baffles on the Flow Field in a Rectangular Enclosure: A Computational Study <i>B H Lakshmana Gowda and N Gopi</i>	157
A Numerical Simulation of Turbulent Flow through a Curved Duct <i>A K Biswas , Ashoke K Raman and A N Mullick</i>	169
Heat Transfer in MHD Micropolar Fluid Flow Past a Vertical Plate in Slip-Flow Regime <i>Ramprakash Sharma and Abhay Kumar Jha</i>	179
Effect of Non-Uniform Temperature Gradient on the Onset of Rayleigh–Bénard–Magnetoconvection in Micropolar Fluid with Maxwell–Cattaneo Law <i>S Pranesh and R V Kiran</i>	193
MHD and Thermal Dispersion-Radiation Effects on Non-Newtonian Fluid Saturated Non-Darcy Mixed Convective Flow with Melting Effect <i>B D C N Prasad, K Hemalatha, and J Siva Ram Prasad</i>	215
