## Editorial

From Instruction to Construction: A Pedagogy for Effective Learning of Science <i>Francis Peter S.J.</i>	1
Instructional Strategies to Revitalise the interest of Students towards basic Sciences <i>H.S. Ganesh Bhatta</i>	9
Science Education - A New Vision and Mission <i>Ronald Mascarenhas</i>	15
Evolution of Ideas <i>M.R. Nagajaru</i>	19
Basic Thinking about Basic Science - A Phenomenal Approach <i>Nagalakshmi A. Rao</i>	23
Innovative Methods in the Teaching Learning Process of Basic Sciences <i>Nagaveni B. &amp; M. Prem D'Souza</i>	28
Methods to Revive and Revitalize the Interest of Students Towards Basic Sciences <i>S. N. Shobha Devi</i>	33
Non-Formal Methods of Chemistry Education <i>Louis George</i>	36
Creating Interest in Students Towards Basic Science <i>A.P. Radhakrishna</i>	42

Challenges and Strategies that Enkindle Interest in Basic Sciences <i>Noeline J. Pinto &amp; Roopa S.</i>	51
Kinetics of Oxidation of Benzoin by N- Bromosuccinimide <i>R. Sridharan &amp; N. Mathiyalagan</i>	55
Horticulture in Vrikshayurveda <i>M.V. Praphulla</i>	62
Modelling for HIV Spread in Homosexual Population <i>T. Srivenkataramana &amp; C. Nagaraja Rao</i>	68
A Thermodynamic Analysis of Urbanisation <i>T. Srivenkataramana &amp; T. Balakrishna Bhat</i>	78
Synthesis and Characterization of Benzoic Acid Complexes with Biologically Active Metal Ions <i>M.S. Selvakumar and S.R. Bheeter</i>	85
Effect of Organic Manures on Soil Properties and Yield of Finger Millet ( <i>Eleusine Coracana</i> ) Gaertn <i>C. Vijaya Kumar, G.N. Gajanana and Basavaraj</i>	90
A Simple Solution for Diophantine Equations of Second, Third and Fourth Power <i>A.K. Maran</i>	96
