

Editorial

This issue of Mapana—Journal of Sciences is devoted to research articles from Chemical Sciences. Researchers from various universities have contributed to the present issue. The first article is on ‘Studies on Ruthenium and Rhodium Complexes Containing 1,2- bis(N-Methylbenzimidazolyl) Benzene and Catalytic Transfer Hydrogenation’ by *Hunasekatta G Bheemanna et al.* The second article by *Rita Bhattacharjee et al.* is on ‘Synthesis and Characterization of Palladium(II) Complexes with Substituted Dihydrobenzoimidazoquinazoline Derivatives’. The third article on ‘Kinetic Study on Oxidation of Thiodipropionic Acid by Iron (III)-bipyridine Complex’ is authored by *Selva Priya et al.* The last article by *Sumana V S et al.* is about ‘Miscibility of Starch and Low Molecular Weight Poly(ethyleneglycol) Blends in Aqueous Medium’.

All the articles were peer reviewed by experts in their respective fields. The suggestions given by them have been incorporated. We thank all the reviewers for spending their precious time in reviewing the articles and giving valuable suggestions. We also take this opportunity to thank all the authors for their valuable contributions. To improve the quality of our journal we expect the cooperation and expert guidance of the researchers. We have been continually striving to meet the global standards for journal publication. Thus support and cooperation from the academic community is of utmost importance in improving the quality of the journal.
